FOR IMMEDIATE RELEASE

RENAISSANCE PARTNERS, LLC EXECUTIVES ATTEND HIMSS 2010

Investment Banking firm to discuss current trends in M&A and Capital Markets within the Health Care Technology Industry

PITTSBURGH February 15, 2010—[Alistair T. Rock](#), Managing Director and Principal, and [Steven J. Shangold](#), Principal of Renaissance Partners, LLC to attend the HIMSS10 Conference, March 1-4, 2010 in Atlanta, GA.

The Healthcare Industry is engaged in an unprecedented wave of transactions by which the industry is integrating traditionally separate and distinct medical, surgical, pharmaceutical and behavioral products and services, as well as the insurance and other financial vehicles to finance their delivery. These integrated delivery systems are designed to meet the expenditure reduction needs of corporate and government purchasers of health care. These changes have led to an expanding availability to Capital, and increasing M&A activity at improved valuations within the healthcare technology industry. Our knowledge of these various and distinct systems allows us to provide high-quality representation to our clients on both a national and regional basis.

Mr. Rock brings to the firm a wealth of experience in health care, technology and manufacturing, serving most recently as President and CEO of Employee Benefit Data Services, a leading national health care technology solutions provider, and subsidiary of Highmark Inc. Mr. Rock has also worked for the BOC Group PLC and Marconi PLC, formerly General Electric Company, where he held a number of global executive positions with both organizations including Head of Global M&A. Mr. Rock was involved in some \$45 billion of M&A deals across five continents.

Mr. Shangold brings to the firm years of experience in the information technology industry, primarily serving clients within the healthcare, manufacturing and financial services industries. He most recently served as President and CEO Mastech Inc., a leading software consulting and systems integration firm. In 2008, he led the

successful public spin-off of Mastech onto the American Stock Exchange. Mr. Shangold also received recognition as the "2007 Thought Leader of the Year" by Human Resources Outsourcing Association (HROA) for business model innovation. He is a Board Trustee for The Children's Hospital of Pittsburgh Foundation.
